

Ofer Brodatch

+972-54-8003080 | ofer.brodatch@gmail.com

Full-stack software developer with an MSc in Neuroscience and 2 years of professional experience building and maintaining web applications for enterprise clients. Demonstrated ability to independently own and deliver features end-to-end, from conception through deployment. Combines development expertise with strong analytical and data modeling skills from cognitive linguistics and neuroscience research background.

Work Experience

FULL-STACK WEB DEVELOPER, KA-SYS SOFTWARE & DATENVERARBEITUNGS GMBH | 2023-2025

- Developed client-side and server-side components of web-based applications and APIs for Deutsche Telekom
- Built features end-to-end: Developed countless features from scratch, handling everything from front-end interfaces (JavaScript, jQuery, CSS Bootstrap) to back-end logic (PHP) and database operations (MySQL)
- Maintained and optimized existing systems: Enhanced existing features and debugged production issues across multiple applications, ensuring system stability and performance
- Worked on approximately 10 different projects and took ownership of 5 of them - receiving most tickets and providing technical guidance to other developers on those systems
- Independently resolved complex technical challenges: Handled challenging tickets across different systems with minimal supervision, including custom SQL queries beyond the company's standard framework
- Conducted code reviews and mentored team members on best practices for both front-end and back-end development
- Worked in an agile development environment, using GitLab for version control

TEACHING ASSISTANT, TEL-AVIV UNIVERSITY | 2022

- Introduction to Linguistics: Building a Theory – attended by 20 undergrad students.

ISRAEL DEFENSE FORCES, UNIT 8200 | 2012-2015

TEAM LEADER

- Assigned tasks to a team of 5-10 research analysts, planned the team's work and prioritized team tasks.
- Trained and guided the team members.
- Coordinated the team's work with that of parallel teams.

INTELLIGENCE RESEARCH ANALYST

- Analyzed and crossed data from multiple sources and extracted insights in a real-time production environment.
- The position required both high-level Arabic and information analysis skills.

Education

M.SC. IN NEUROSCIENCE (SUMMA CUM LAUDE), SAGOL SCHOOL OF NEUROSCIENCE, TEL-AVIV UNIVERSITY | 2020-2022

Supervisor: Prof. Aya Meltzer-Asscher

Thesis subject: The role of morphological information during grammatical gender retrieval

- Initiated, designed, and conducted a series of experiments.
- Developed the experimental procedure and constructed data collection protocol.
- Conducted data analysis, data modeling, statistical analysis, and data visualization.
- Generated R scripts for data aggregation from multiple sources.
- Collected, cleansed and analyzed structured and unstructured data.
- Used linear mixed-effect regression model to analyze the influence of morphological marking for gender on grammatical gender retrieval.

DOUBLE MAJOR B.SC. IN BIOLOGY (MAGNA CUM LAUDE) AND LINGUISTICS (SUMMA CUM LAUDE), WITH AN EMPHASIS ON NEUROSCIENCE, SAGOL SCHOOL OF NEUROSCIENCE, TEL-AVIV UNIVERSITY | 2017-2020

- Dean's list, Sagol School of Neuroscience | 2020

Skills & Languages

SKILLS

- PHP
- Python
- SQL
- JavaScript
- jQuery
- CSS Bootstrap
- R
- Gitlab

LANGUAGES

- Hebrew – Mother tongue.
- English – Proficient.
- German – Proficient.
- Arabic – Advanced.
